For Immediate Release

ComputerEase Construction Software Announces Partnership with Abco Safety

Abco Safety alliance will give ComputerEase software users a single source for competitively-priced construction safety products and services.

CINCINNATI, Ohio, May 12, 2010: ComputerEase Software, Inc., a leading provider of construction accounting, project management and remote field-to-office software, today announced that it has formalized a partnership with Abco Safety, a Cincinnati-based supplier of high quality safety products and safety training services. The partnership is designed to give ComputerEase software users easier access to the vital products and services needed to support their safety and loss prevention programs.

Busy construction safety managers shouldn't have to call multiple suppliers to find the products they need at competitive prices. Abco Safety sources over 100,000 products from more than 750 manufacturers, and serves customers throughout the U.S. and Canada. ComputerEase clients have access to a dedicated Abco Safety sales representative, which will streamline product inquires and order entry, and ensure that they receive the best pricing possible.

The alliance with Abco Safety is one of several new partnerships formed by ComputerEase and reflects the software developer's growing focus on finding innovative ways to add greater value to the service it delivers to clients. "As a technology provider, our clients count on us to support their businesses by streamlining their accounting and field operations. We have chosen to take that support one step further by bringing complementary products and services to our clients' doorsteps via partnerships," said ComputerEase President John Meibers. "Our alliance with Abco Safety will make our clients' lives easier by giving them direct access to safety products they can trust."

To recognize this new partnership, Abco Safety is offering a $100 discount to the first 10 ComputerEase users, who are not already Abco Safety customers, that place a qualifying safety products order. To learn more about Abco Safety and register to receive this limited promotional offer, visit http://www.construction-software.com/Find-Out-More/abco-safety.cfm or contact Jack Ballman at jackb@computerease.com.

About ComputerEase

Founded in 1983, ComputerEase develops integrated construction accounting and project management software that helps contractors solve problems and increase profits. The scalable, modular structure of ComputerEase makes it the ideal fit for companies of all sizes and specialties. In addition to accounting and job costing, ComputerEase offers robust equipment, purchasing, service and electronic document management solutions. ComputerEase takes great pride in providing a matchless level of customer support. To accomplish this, the company has put industry professionals in key positions: 100% of the

ComputerEase support, training and implementation staff has construction experience. More than 6,000 contractors across the U.S. use ComputerEase to streamline their operations and increase profits.
