ComputerEase Construction Software Announces Partnership with Infintech

Infintech will give ComputerEase software users a turn-key solution for accepting electronic payments.

CINCINNATI, Ohio, July 2nd, 2015: ComputerEase Software, Inc., a leading provider of construction accounting, project management and remote field-to-office software, today announced that it has formalized a partnership with Infintech, a Cincinnati-based company supplying a high quality service for accepting electronic payments. The partnership is designed to give ComputerEase software users the lowest possible rates available from the major credit card companies and offer simple and easy set-up.

Infintech was recently awarded the 2014 Torch Award in Marketplace Ethics by the Better Business Bureau. This elite award is given for their fresh look at credit card processing, offering education and transparency to businesses. Infintech aims to help demystify credit card acceptance by educating businesses on payment methods, costs and security.

The alliance with Infintech is one of several new partnerships formed by ComputerEase and reflects the software developer's growing focus on finding innovative ways to add greater value to the service it delivers to clients. "As a technology provider, our clients count on us to support their businesses by streamlining their accounting and field operations. We have chosen to take that support one step further by bringing complementary products and services to our clients' doorsteps via partnerships," said ComputerEase President John Meibers. "Our alliance with Infintech will make our clients' lives easier by giving them direct access to an electronic payment service they can trust."
